

Dermafix

STAND-ALONE  
FRACTIONAL CO2 LASER

Highly-efficient machine for  
rapid and lasting skin  
rejuvenation effect

Take advantage of a top fractional technology showing the best results just after one session!

Fractional CO<sub>2</sub> lasers successfully deal with scars and pigmentation, fine lines and wrinkles, improve skin texture and add natural glow to the skin. The treatment stimulates natural regeneration and boosts collagen production, thus improving the skin complexion from all angles.

Two surgical handpieces allow the use of this laser for removal of neoplasms and scar tissue as well as tissue cutting with coagulation.

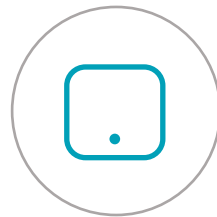

With optional vaginal handpieces you may offer a variety of treatments from genital bleaching and reshaping of the vulva to vaginal rejuvenation and vaginal relaxation syndrome treatment.
