

EMS-4S

11,800 EUR

**Stand-alone 4-handle
muscle building and
fat burning machine**

CE certified

Electric muscle stimulation is a non-invasive and energy-saving way to tone or build muscle mass, as well as burn fat. The machine is equipped with shaped handles for comfortable treatment of various areas of the body. Rollers with lock provide safe mobility. Touch screen interface allows quick and easy adjustment of the settings for more personalized results in the manual mode or use of preset programs.

4 handles (2 flat + 2 curved) ensure better user experience and a wider range of simultaneously treated areas

5 belts allow for more secure and safe fit of handles for better results

Intuitive software for both automatic and manual modes offers treatments for arms, calves, abdomen, buttocks, thighs for male and female clients

Adjustable parameters make EMS-4S adaptable for the wide range of users.

Widen your opportunities with optional curved or pelvic handles, longer handles wire (1.8 m or 2.5 m), or additional set of belts (5 pcs).

Highlights

No additional supplies

Start working with EMS machine straight away

No downtime

Plan your working schedule at your convenience

Preset and manual working modes

Time-saving programs with flexibility for personalized solutions

Stable connection

Wire connection provides unfailing operation compared to devices with Bluetooth or WiFi connection
