

**Laser for tattoo removal**  
TR-1064-532-1320-QP

**Portable Q-switched Nd:YAG laser machine**

Perfect full-functional space-efficient solution. A good start for small beauty centers and those who run a small business or open their tattoo removal business from scratch

+421 353 211 408    fitaims.com    info@fitaims.com

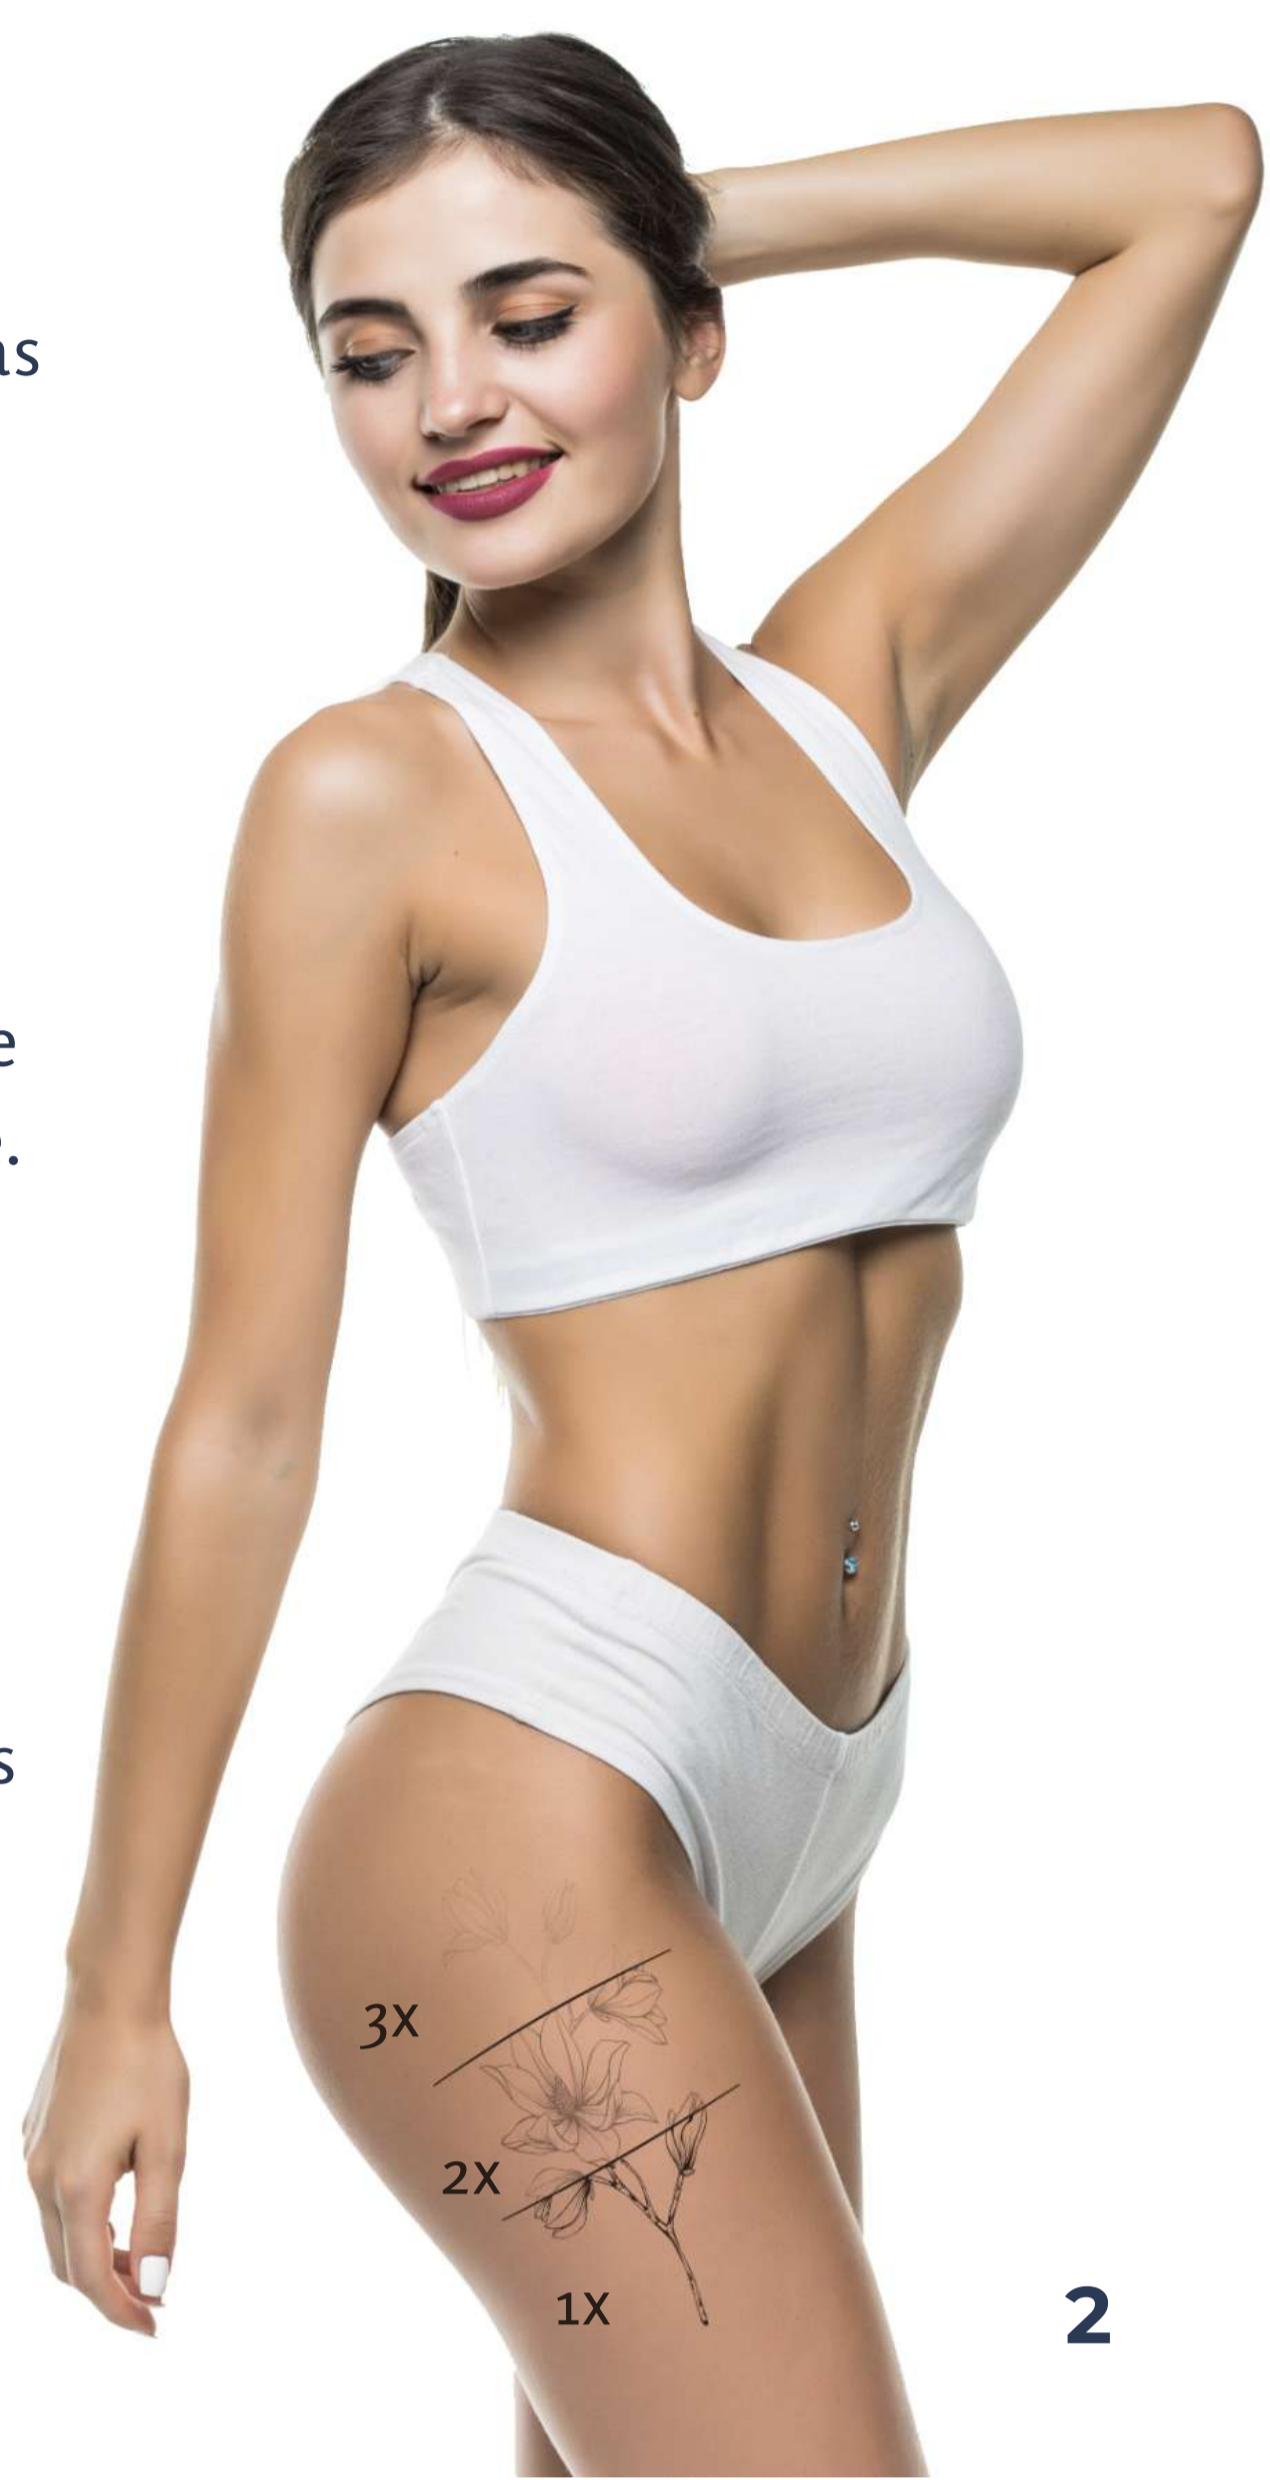

Quick and easy non-invasive laser skin treatment. Standard handles, 1064 nm and 532 nm, allow removing dark, red, yellow, coffee tattoos as well as dermal and epidermal pigmented lesions.

With a carbon peel lense you will be able to offer a Hollywood facial peel for giving a skin quick refresher without any downtime.

Optional fractional lense will help to deal with the stubborn tattoo pigments and offer skin resurfacing procedure for improving skin tone and oil control, tightening pores, and making fine wrinkles less visible.

**Portable Nd:Yag laser is an optimal solution as it features:**

- High functionality and performance comparable to heavy-duty lasers
- User-friendly menu to make operating process simple and intuitive
- Compact size for easy location at any suitable place, transport and storage
- Cost efficiency for smooth business start
